

The Swallowtail Federation of Church Schools
With friendship, trust and kindness we fly!

(Love your neighbour as yourself, Mark 12:30-31)

We welcome all people and encourage everyone to meet their full potential – to love each other, love to learn and learn to live in all its fullness. We love our neighbours – in our school, our federation, the local community, nationally and globally, as Jesus told us to do so.

Curriculum Statement

Our curriculum is underpinned by the National Curriculum (2014). It is engaging, exciting and innovative, helping to ensure that our children develop the knowledge and skill they need to excel, and become creative and curious citizens. Our curriculum is a knowledge-based curriculum which stimulates our children to ask searching questions; shaping their learning and enabling them to develop into independent thinkers and learners.

Our Vision and the Curriculum

With friendship, trust and kindness we fly!

Friendship

- ✓ Staff work effectively as a team. They support and challenge one another to deliver a curriculum that aims high and creates excellence in education.
- ✓ Our curriculum engages perceptively with the world around us, showing understanding, treating people with dignity and celebrating diversity.
- ✓ We develop positive relationships throughout our schools, promoting openness and a willingness to engage.

Trust

- ✓ Our pupils and parents trust that we will support pupils to develop requisite skills to be successful, independent and motivated learners in readiness for their next stage of education.
- ✓ Our pupils are trusted to take responsibility for their own learning, recognising 'failure as an opportunity to learn, always seeking to do their best and never giving up.

Kindness

- ✓ We offer a curriculum which is broad and balanced, and which builds on the knowledge, understanding and skills of all children, whatever their starting points, as they progress through each Key Stage.
- ✓ Children develop a strong sense of moral purpose in addition to a respect and understanding of people who have different characteristics to themselves, whether that be age, disability, gender, race or sexuality.

Intent

We offer a curriculum that is built upon an acquisition of knowledge. The intention of our curriculum is for pupils to have the knowledge, skills and wider understanding to be successful, independent and motivated learners, in readiness for their next stage of education. We aim to enable our pupils to retain high quality knowledge, that can be applied across the curriculum and from year to year.

Our curriculum provides effective coverage of the National Curriculum with knowledge-based outcomes and key concepts being mapped out. is tailored to meet individual needs and ensure all pupils are motivated to learn.

Implementation

The curriculum is implemented by class teachers developing high quality short-term lesson plans which follow knowledge-based outcomes set in the year overview. Knowledge based objectives are shared with pupils at the beginning of each unit and used as a reference tool by teachers.

Lessons ensure that teachers present the subject matter clearly, develop a broad and rich vocabulary and recognises the specific character of individual subjects

Pupils' books will demonstrate that pupils of all ages study a range of subjects in depth, enabling them to make progress and build upon their knowledge and understanding of key concepts.

Ongoing formative assessments allow teachers to plan and teach effectively drawing on gaps of knowledge/misconceptions. Pupils are assessed against knowledge-based outcomes and these are used to identify if they have met/not met/exceeded the expected standards. Moderation sessions are held by curriculum leaders to verify these judgements.

5 R's underpin our teaching and learning: resilience, responsibility, resourcefulness, reflectiveness and reasoning. Together these support pupils with acquiring the skills they need to be life-long learners. These are referred to regularly and celebrated.

Children will be given the opportunity to share, celebrate and enhance their learning through Federation days and events.

Impact

Children's attainment in all subjects will be in line with, or exceeding national expectations, due to:

- ✓ Improvement in pupils' long-term memory through high-quality knowledge.
- ✓ Providing a coherent, cumulative and content-rich curriculum.
- ✓ In depth and thorough curriculum leadership structure which allows all curriculum areas to be monitored in depth.
- ✓ Clear and comprehensive cycle of 'action and review' to ensure development in all curriculum areas is reflective and challenging.
