

## Green Class 'Home Learning' Spring Term 2 - 2018

'Bread and butter' learning - these are the things that need to be happening regularly:

- Reading (anything!).
- Activ Learn (if you have lost your log in please ask and we will send you a new copy).
- Practise reading and spelling the Years 1 and 2 Common Exception words.
- Practise counting in multiples of 2, 5, and 10.
- Please keep an eye on the class blog for regular curriculum updates and weekly challenges.

Choose **TWO** of the following to complete during this half term. Present your work neatly in your special 'Home Learning' book.

**Tasks due in by Monday 16<sup>th</sup> April 18**

### Animal Sounds

We have been doing lots of work on animals since January, thinking about their habitats and how they survive.

Think about an animal of your choice and explore sounds that it might make in its environment.

For example, you could use leaves on the ground to mimic the sound of its movements, or sticks to mimic scratching sounds it makes.

Keep a diary of all your sound exploring.

#### **Challenge:**

Can you use an instrument or your voice to make a short piece of music that reminds you of your animal?

### Active Explorers

Did you see the winter Olympics?

Spend some time researching and finding out more about an exciting winter sport?

You could make a fact sheet or draw and label a picture of the sport.

#### **Challenge:**

Can you find out more about an athlete from another country? How is life in their country different to ours?

**Multiplication Madness** Can you find your way around the maze? Be careful as there are some tricky multiplications to solve on your way!

If you want to change the multiplication questions your child faces (maybe sticking to 2's, 5's and 10's) then please feel free to do so. We have also attached a blank one which you could edit yourself.

#### **Challenge:**

Design (or even make) a game which challenges its players to solve multiplication problems as they move around the board.

### Chinese Menu

China is a very magical place and has some delicious dishes.

Research some traditional dishes and create your own menu. You may even want to try making and tasting some of these dishes.

#### **Challenge:**

Can you write a recipe for one of the dishes?

Remember to use bossy verbs at the beginning of the instructions and can you think about how much of each ingredient you need?
