

As scientists we will...

- Learn about the parts of a plant.
- Find out what a plant needs to live and grow.
- Learn how water moves through plants.
- Recognise that light is how we see things.
- Learn about reflections.
- Find out about shadows.
- Make sure we know how to keep our eyes safe in the sun.

Books we may read...

As artists and designers we will...

- Practice our painting and sketching skills.
- Learn about the architect, Christopher Wren.
- Look at the artist, L.S. Lowry and practice his matchstick person technique.
- Experiment with creating different effects, using different mediums
- Design and create a model with gears and pulleys.

As geographers and historians we will...

- Use maps to locate the continents of the world.
- Learn the location of different countries across the world.
- Compare where we live with another place in the UK.
- Find out how places in the UK have changed over time.

Where we live

How places change

Home and Away

How is where we live different to other places?

Our computing will include...

- Coding on Espresso
- Using Word and adding pictures to our work.
